**REALTOR, Real Estate Developer/Investor, National Real Estate Educator, Expert Witness, and fun loving Mom and Grammy...all describe the roles that Marcie has on a daily basis.**

“Energetic, enthusiastic about her topic, precise in her delivery, captivating, and AWESOME” are some of the adjectives from student critiques to describe her presentations. What you need to know about Marcie is that she is *absolutely committed* to the real estate profession on every level. Licensed since 1971, she’s done it all when it comes to involvement within the REALTOR family. A Charter CRS, she has served as State Chapter President and Received the CRS of the Year award from both of those Chapters. She was one of the originators of the Regional Vice Presidents for the Council, for which she is very proud to have served 6 years as one of the first Regional Reps. She was one of the first national trainers for the ABR designation and responsible for many of the rewrites of that coursework. Today Marcie concentrates her efforts on disclosure and legal topics, but her main body of work is in the area of Real Estate Professionalism.

Today what you need to know about Marcie is that the program you are about to hear will change your thought process. Marcie defines her role as an “educator” as “being the person who can change the behavior of the student and can influence them to want to achieve the level of competency that is expected of a true real estate professional.” While most of her topics are “serious by nature,” the critiques always compliment the sense of humor with which the information is delivered. Her quick wit and absolute mastery of the subject matter have made her one of the most popular real estate trainers nationwide.

Welcome our guest from Sioux Falls, SD, Marcie Roggow (Pronounced Row Go)
